

Broad Street Market Alliance Conflict of Interest Policy
Adopted December 2024

Conflicts of Interest

Individuals serving on the Broad Street Market Board of Directors or employed as Senior Market Staff shall be prohibited from accepting free or discounted goods or services from vendors at the Market unless such free or discounted goods or services are offered to the general public on the same terms.

Members of the Broad Street Market Board of Directors who are also vendors at the Broad Street Market shall only be prohibited from offering free or discounted goods or services to non-vendor members of the Broad Street Market Board of Directors, and may engage in customary trade, exchange, and offering of goods and services as is typical in a community of market vendors. Vendors who are board members must nevertheless also avoid any appearances of impropriety or favoritism.
